The darkest green lawn on the street.

Maintenance

- ☑ Cut to 2.5cm-5cm in sun, or 5cm-7cm in shade
- ☑ Mow every 7-10 days in warmer months, and every 3-6 weeks in colder months
- ☑ Fertiliser is recommended twice a year: once in early April and once in September

Prestige® Buffalo is drought tolerant **once established** – but, like all plants, needs water. Requirements will vary depending on environmental factors. Be aware of a drying climate and water your lawn accordingly.

Shade tolerance comparison...

**Shade tolerance in low wear conditions.
~Approximations based on typical performance of common varieties.*

Colour can be a top priority when choosing turf – and **Prestige® Buffalo** is the ultimate choice for lovers of dark green lawn. With its amazing winter colour and shade tolerance, **Prestige®** delivers year-round.

Prestige® has a dense growth pattern, resulting in solid wear tolerance and a rapid recovery rate. It's also what makes **Prestige®** great at out-competing weeds.

For sun, shade and wear tolerance, **Prestige® Buffalo** turf is a standout lawn.

With its deep root and underground runner system, **Prestige®** is an efficient water user and drought tolerant.
